Thanks for visiting our website on NovaTech.

I got into digital investment trading in October of 2021.

Wow! Have I learned a thing or two about this marketplace! Some lessons are hard.

It truly is the wild, wild west. Not for the faint of heart.

I put my toe in the water several times. In some cases I did OK, but in other cases I lost. But I've learned a lot in the process to avoid making the same mistakes.

There seem to be a lot of scammers in this marketplace. So, you need to watch for the tell-tale signs of a scam. Here are some things I have learned.

- If they promise incredible returns, be cautious. Often these platforms pay great returns in the first several months, baiting you into putting more funds in. Then they disappear with your money.
- If they don't reveal the principal players behind the company, beware.
- If you can't find their office location and can't verify their accreditations, beware.
- Are they licensed?
- Never invest money you cannot afford to lose. Only invest your "risk capital" within your portfolio.

So, after some hard lessons I began to look for companies that did not do the above. I found one called NovaTech, which does Forex Trading and crypto trading but in a way that limits the investor's risk. (They never risk more than 20% of their portfolio. No investment company does that! I was impressed!)

Here are some other things noteworthy about NovaTech.

- They average 2 to 4% per week gains over last 3 years, over 17% a month. (Finally an alternative to my bank!)
- They've had no losing weeks thus far.
- Never failed to pay on time.
- Trading profits paid each Friday. Performance bonuses on affiliates paid on Saturday.
- You can reinvest weekly returns to "compound" or withdraw, your choice.
- Owners are highly visible.
- Fully transparent.
- Company is a registered hedge fund and have their own brokerage firm.
- They feature a long-term sustainable affiliate pay plan for those interested in sharing, but there is no requirement to share to earn.
- You enroll using LTC Litecoin after setting up an exchange account that trades crypto.
- Stops trading in volatile market conditions.
- Video tutorials.
- CEO and spouse are born-again Christians.
